

December 1, 2019  
Iwa Nursery School

The sun in December is soft and warm. Because it is cold season, you can understand the warmth and value of the sun. This year will end in a month. This month, there are many events such as "school play", "Christmas party" and "Hanamochi making" this month. I want to enjoy the event unique to this time of year.

Do you talk about Christmas as a family? The children also said, "I put out a Christmas tree at home" at the nursery. The children are excited about the topic of Santa Claus.

### ♪ School Play ♪ Soon

On the 13th of this month, there will be a school play. I decided what kind of role I wanted to play and what kind of instrument I wanted to play while consulting with the children. "What shall we do this year?" "If someone wants to play the leading role, do you decide with rock-paper-scissors?" I felt the growth of their thinking power.

Every time props and costumes are ready, the kids are excited. "That's good!" "That costume looks good on you." It is very smiley to see each other praising each other. Sometimes they exchange instruments and try their friends' instruments, and they feel the joy of touching another instruments.

There are a lot of things to learn for the school play, and the children are doing their best. I'd like to enjoy the training process and welcome the day.

### Let's play outside !

The wind is getting colder, but the children are full of energy. They warm up their body by moving their body, such as playing tag, jumping rope, and playing with the ball.

"Let's play together." "sure!" When I see the interaction swaying children's feelings, it warms my heart.

### Enjoyed Store play

The long-awaited opening day! "Welcome! "A cheerful voice echoed at hall. It was divided into each store, and it was a good customer service. "It's sweet and delicious!" "It's 200 yen!" "Thank you very much." Children were able to touch a lot of words and interactions. Last sales comparison, they counted the money. And they said, "Which store is the number one?"

They were having fun.
