Iwa Nursery School

It is said that the coldest of the year is the coldest in February, but this year it does not snow easily. "Isn't it snowing? Many people look out of the window and look forward to it. I would like to have the opportunity to experience the nature of winter and respond to the interests of children.

Children hear words that are conscious of schooling in various scenes of the garden life. They organize slippers and picture books. They feel great pleasure in being recognized not only for myself, but also for the benefit of others. "It's going to be an elementary school soon!" These words empower the children.

Let's all think!

We often play in the room after lunch, but these days I have groups of four or five people think about "which toys to play with" and "where to put them out" as a duty activity. When They was just starting out, some child was a figure that Prepared alone before listening to the opinion of a friend. I said "I want everyone to think and prepare together." The way the children proceed was changed by repeatedly telling them how to proceed.

It takes a little time to get ready to play, but we all are eager to work on it, feeling the joy and responsibility of deciding and preparing for it ourselves.
